The Judicial Branch of Government

The judicial power shall be vested in an integrated judicial department consisting of a supreme court, such intermediate appellate courts as may be provided by law, a superior court, such courts inferior to the superior court as may be provided by law, and justice courts. Arizona Constitution, Article VI, Sec. 1

THE SUPREME COURT

The Arizona Supreme Court, which consists of five justices, has administrative authority over all the courts in the state. The Chief Justice, who is selected by the other justices for a five-year term, is responsible for exercising the Court's supervisory power. To assist it in carrying out its various responsibilities, the Court appoints the Administrative Director of the Courts, the Clerk of the Supreme Court, and a central staff of attorneys. It also appoints law clerks and secretarial and clerical staff.

The Supreme Court's constitutional jurisdiction includes appellate review, the issuance of extraordinary writs, such as habeas corpus, and the power to make rules governing procedural matters in all the courts. Criminal cases involving the death penalty are appealed directly to the Supreme Court. Decisions of the Court of Appeals may be reviewed at the discretion of the Supreme Court.

COURT OF APPEALS

The Court of Appeals has two divisions. Division One, with twelve judges, is located in Phoenix; Division Two, with six judges, sits in Tucson. The court has appellate jurisdiction to determine all matters properly appealed from the Superior Court except for criminal cases where the sentence of death or life imprisonment has actually been imposed.

The geographical jurisdiction of Division One covers appeals from the Superior Court in the counties of Apache, Coconino, La Paz, Maricopa, Mohave, Navajo, Yavapai, and Yuma. In addition, Division One has statewide responsibility for reviewing decisions of the Industrial Commission and unemployment compensation appeals from the Department of Economic Security. Division Two receives its cases from the Superior Court in the counties of Cochise, Gila, Graham, Greenlee, Pima, Pinal, and Santa Cruz.

SUPERIOR COURT

At the close of 1985, the Superior Court consisted of 95 judges sitting in 15 counties. The Superior Court is a trial court of general jurisdiction and is empowered to hear cases of equity and law involving real property; civil claims of $2,500 or more; felony prosecutions and misdemeanors not otherwise provided for by law; probate matters; and cases involving dissolution or annulment of marriage. The Superior Court has concurrent jurisdiction with the Justice of the Peace Court over civil claims between $500 and $2,500. It also has exclusive jurisdiction in juvenile matters.

In counties with three or more superior court judges, the presiding judge may appoint court commissioners to perform the duties provided by law or Supreme Court rule. Commissioners usually determine matters where a default has been entered against a party and may preside at the initial appearance of a defendant charged with a crime. Adult and juvenile probation departments also operate under the supervision of the Superior Court.

Each county has a Superior Court Clerk who is elected at the general election. The responsibilities of the Clerk's Office are diversified and include the maintenance of official court case files; certification of documents; collection of fees; and issuance of summonses, subpoenas, and marriage licenses. The Clerk serves as jury commissioner in all counties except Maricopa and Pima; a separate jury commissioner is appointed in these two counties.

JUSTICE OF THE PEACE AND MUNICIPAL COURTS

Statewide there are 84 justices of the peace sitting in the same number of precincts. These judges are elected during general elections by the voters in their respective precincts. Municipal Courts are mandated by state law in each incorporated city or town. At the time of the 1985 personnel survey there were 113 full-time and 69 part-time municipal judges throughout the state. Municipal judges are usually appointed by city or town councils. Both courts have jurisdiction to hear class 1, 2, and 3 misdemeanor cases. Justices of the peace may also conduct preliminary examinations on felony complaints, and they have civil jurisdiction over lawsuits involving less than $2,500. Municipal Courts are empowered to hear matters arising out of violations of city or town ordinances. Virtually all traffic violation cases are filed in the Justice of the Peace Courts or Municipal Courts.

General Introduction

For the seventh year, detailed caseload, financial, and personnel information is presented by the Arizona Supreme Court in this separate volume, The Arizona Courts: 1985 Caseload, Financial, and Personnel Report. This report provides both statewide summary and detailed information on individual courts. Its value as a supplement to the 1985 Judicial Report is to persons and agencies who are interested in or involved with budgeting, planning, and administration for the court systems within Arizona.

The terms "fiscal year" or "FY" mean the fiscal year ending on June 30 of the year indicated. For example, most references will be to FY 1985, the fiscal year beginning July 1, 1984, and ending June 30, 1985.

REPORT FORMAT

Contained herein are sections on: statewide summary information, appellate courts, superior court, superior court probation, justice of the peace courts, municipal courts, and court receipts. For easy reference, each court section is identified by the appropriate heading on the upper outside corner of the page.

The following introductory sections have been included to provide an overview of the reported data and enhance the reader's understanding of the numerical information. Particular attention should be paid to the narrative statements and definitions at the beginning of each section and the footnotes applicable to various statistics.

CASELOAD STATISTICS

The caseload statistics presented here have been compiled from the monthly statistical reports submitted to the Supreme Court by the individual appellate, superior, justice of the peace, and municipal courts of the state. Virtually all caseload data contained herein is complete. Incomplete or inconsistent information has been detected, and explanatory footnotes are used for clarification. While the statistics are checked for mathematical accuracy, they are not audited.

Justice of the peace and municipal court criminal statistics presented in this report reflect case "filings" while superior court figures show the number of "defendants" charged.

FINANCIAL INFORMATION

The financial information for superior and justice courts published in this report is based on a survey of the courts conducted during October 1985. Although Supreme Court personnel have worked to collect the most complete and accurate information available, the financial data is unaudited and dependent on the reporting accuracy of the courts participating in the survey. Efforts were made to identify all costs of court operations where the cost is directly attributable to the individual court's budget.

Financial information for the municipal courts has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget dollars appropriated and expended were available; therefore, these figures are not broken down into sub-categories.

The following definitions for the categories used in this report are included to provide a better understanding of the financial information presented.

DIRECT EXPENDITURES AND APPROPRIATIONS--those funds appropriated directly to the court by the immediate funding authority (state legislature, counties, cities, and towns).

Personal Services - amounts for salaries and wages for all personnel.

Fringe Benefits - amounts for employer's cost of FICA, insurance, retirement contributions, etc.

Operating Expenses - amounts for utilities, telephones, postage, insurance, rent, building maintenance, office supplies, and office equipment maintenance.

Travel and Transportation - amounts for personnel mileage, per diem, and lodging.

Professional Services - amounts for court reporter costs, juries, attorney fees for indigent defendants, and mental institution charges.

Capital Expenses - amounts for equipment purchases valued at over $100 or improvements or alterations to building structures.

INDIRECT EXPENDITURES AND APPROPRIATIONS--those expenses attributable to the court, but which are included in the budgets of other departments or agencies.

Fringe Benefits - amounts for employer's cost of FICA, insurance, and retirement contributions not directly budgeted to the court.

Support Services - amounts for data processing, maintenance, accounting, payroll, law library, and building repair not directly budgeted to the court.

FEDERAL FUNDS--amounts received through such sources as federal revenue sharing, Title IV child support, and other federal programs.

PERSONNEL INFORMATION

The personnel information contained in this report is based on an October 1, 1985 statewide survey of the staffing levels of the Arizona judiciary. Because of the vast number of job titles encountered both within and between the different levels of courts, broad, general position groupings were developed to publish the information in a reportable format. Personnel definitions that detail the various types of positions included within each grouping are noted at the beginning of each trial court section and the probation section of this report.

Statewide Filing Information

During 1985, statewide filings for all courts in the Arizona judiciary totaled 1,159,835. At 45.9%, filings in justice of the peace courts constituted almost half of the state total. Filings in municipal courts nearly matched the justice courts with 43.8% of the total. Consequently, lower jurisdiction courts accounted for almost 90% of all court filings in 1985. Traffic cases comprised the majority of case filings at 64.6% of the total. Criminal cases were the next highest category, accounting for 19.0% of all filings, and civil cases represented 12.3%. The superior court handled nearly all of the cases in the "Other" category, which represented 4.1% of all filings. Domestic relations cases made up over 70%, or 33,510 filings, of the "Other" category. Additionally, proportions of the Supreme Court and Court of Appeals caseloads were included in the "Other" category since matters such as special actions, industrial commission cases, habeas corpus, and state bar matters are handled in these courts but are not appropriate as part of the primary case categories (criminal, civil, and traffic).

Statewide Judicial Expenditures

The Arizona judiciary is funded primarily by state, county, and local governments. The financial information shown below reflects the total statewide expenditures for all the courts and from all the funding sources reported in the 1985 financial survey of courts. The table summarizes the statewide financial figures for the various courts in Arizona. Financial information for individual court units can be found in the appropriate section of this report.

In summary, counties provided 70.2% of the monies required to operate Arizona's courts during FY 1985, a decrease from the 73.3% they provided during 1983-84. The state's funding contribution to the courts was 13.4% in FY 1985, a 2.6% increase over the 10.8% contributed the previous year. Local funds accounted for 16.1% of the total monies spent, and federal funding provided less than .3% of the identified statewide expenditures for this period.

Two-thirds of the total judicial expenditures were for services at the superior court level during FY 1985. This represents a slight decrease from the previous year when the superior court accounted for 68.1% of the total. Municipal courts and justice courts expended respectively 16.1% and 10.3% of the total monies. Arizona's appellate courts accounted for 6.9% of the statewide expenditures, a slight increase from the 6.4% recorded in FY 1984.

Statewide Financial Information
All Courts

Statewide judicial expenditures can be compared with appropriations for all courts across the state. The table on this page represents specific line-item expenditures for FY 1985 and appropriated monies for FY 1986. Much of this data was compiled based on responses to the Supreme Court's financial survey of Arizona courts conducted in October 1985. In order to accommodate comparisons, the statewide financial information is provided for each of the court levels comprising the Arizona judiciary. The municipal court figures obtained from the Arizona League of Cities and Towns were available only as total amounts and, therefore, are included solely in the personal services category.

Two additional funding sources are comprised within the superior court expenditures. Monies received from probation services fees are available to adult probation departments, and 12% of the Criminal Justice Enhancement Fund is allocated to juvenile probation departments for juvenile crime reduction. These funds are not considered to be appropriations and, consequently, are not contained within the appropriations figures. The Supreme Court administers monies for Probation Enhancement, Intensive Probation, and the Juvenile Delinquency Reduction Fund. The funds for these special programs are included below at the superior court level where they are expended.

Court Receipts

The following section lists the total amount of fines, fees, forfeitures and surcharges reported as collected by the various courts throughout the state during fiscal year 1985. The amounts are not audited.

Appellate court revenues consist primarily of filing fees. Fees are collected by the Supreme Court pursuant to Arizona Revised Statutes Sections 12-321 and 12-120.32 and by the Court of Appeals pursuant to A.R.S. Section 12-120.31. The Supreme Court also collects fees as authorized under A.R.S. Section 12-323 for certificates of admission to the State Bar and for certified copies of records.

The Superior Court is authorized under A.R.S. Sections 12-311 through -313 to assess various fees for civil actions taken, and pursuant to A.R.S. Sections 13-801 to -804 to collect criminal fines imposed by the courts. The clerk of the superior court is charged in A.R.S. Section 11-554 with the duty of collecting fees for court and court-related actions (marriage licenses, filing of papers, etc.). Additionally, A.R.S. Sections 25-303 and -311.01 charge the clerk with the collection of fees for annulment and dissolution of marriage filings, and A.R.S. Section 22-283 provides for fees for civil appeals from justice courts. In several counties the probation department collects graduated fines and probation services fees and submits such amounts to the clerk of the superior court.

In 1984, the Legislature increased fees in the following sections of the statutes: A.R.S. Sections 25-303, 25-311.01, and 11-445. Pursuant to A.R.S. Section 28-1076, the court may impose a civil sanction not exceeding $250 when a person has been found responsible for a civil traffic violation.

The Emergency Medical Services Operating Fund, created by Chapter 249 of the laws of 1983, adds A.R.S. Section 36-2219 mandating a $30 penalty assessment on every fine, penalty, and forfeiture for a violation of A.R.S. Section 28-692 (D.W.I.) and a $5 penalty for violations of Title 28, Chapter 6, Articles 2 through 15, except Section 28-692.

Justices of the peace are empowered by A.R.S. Section 22-112 to set bail for traffic offenses and under A.R.S. Sections 22-281 and -282, to collect fees for civil actions in their court. Fees for small claims filings in justice courts are set by A.R.S. Section 22-522. Constables are entitled to collect fees in civil actions for serving summonses, levying and returning writs of attachment, and other services as provided by A.R.S. Section 11-445. A.R.S. Section 13-807 provides that all such amounts collected be remitted to the county treasurer.

Municipal courts, pursuant to A.R.S. Section 22-424, may set bail for traffic offenses. Fines collected by municipal courts are remitted to the local municipality.

In addition to the courts' authority to collect the fines and fees noted above, the state legislature has mandated that surcharges be imposed for particular offenses. The funds generated by these surcharges are used to support special programs.

Pursuant to A.R.S. Section 41-2403, a 37% penalty is assessed "on every fine, penalty and forfeiture imposed and collected by the courts for criminal and civil traffic offenses." This penalty assessment is deposited with the state treasurer and distributed pursuant to statute to the Peace Officers' Training Fund, Prosecuting Attorney's Advisory Council, Department of Health Services, Department of Public Safety, Department of Law, Department of Corrections, Arizona Criminal Justice Commission, and the Supreme Court. The portion received by the Supreme Court is to be used for reducing juvenile crime and for the appointment of judges pro tempore in the superior courts.

By statute, all surcharges are to be remitted to the respective county or city treasurer who in turn forwards the funds to the state treasurer.

CHANGES AFFECTING FY 1986 COURT RECEIPTS

In its first regular session, the 37th Arizona Legislature (1985) passed legislation which will impact court receipts in fiscal year 1986 and thereafter. The changes are summarized below:

1. A.R.S. Section 12-286 provides that the superior court clerk may invest certain monies in interest bearing accounts or certificates of deposit. Interest earned on such investments should be deposited in the county fund and this new money generated by the court will help increase the county fund.

2. A.R.S. Section 12-348 was revised to provide for the award of fees and other expenses to the successful party challenging an assessment or collection of municipal or county taxes.

3. Pursuant to A.R.S. Section 13-808, each person convicted of a felony shall be assessed a penalty of $100, if an individual, and $500, if an enterprise, to be transferred to the Victim Compensation Fund, established by A.R.S. Section 41-2401.01.

Statewide Personnel Information

The table below reflects a statewide summary of all court personnel as of October 1, 1985. This information was reported by the individual courts in response to the annual personnel survey conducted by the Supreme Court. Personnel information for individual courts can be found in the respective section of this report.

The 1985 survey attempted to obtain the most accurate information possible regarding the staffing levels of the various courts throughout Arizona. Personnel have been identified as being full-time (F.T.) or part-time (P.T.) employees in the table below.

The superior court employs approximately 66.3% of the full-time and 36.0% of the part-time court personnel within the Arizona judiciary. The justice courts employ 11.8% and municipal courts employ 16.2% of the full-time court employees in the state. The municipal courts employ 44.1% of the part-time employees in the state, a much larger percentage than the 19.5% employed in the justice courts. Appellate courts (Supreme Court and Court of Appeals) presently account for 5.7% of the judiciary's full-time workforce.

The total number of persons working full-time in the Arizona judicial system has increased 11.7% in the past year, from 3,042 in 1984 to 3,397 in 1985. Total part-time personnel increased 8.8% from 1984 to 1985.

Appellate Courts

Supreme Court

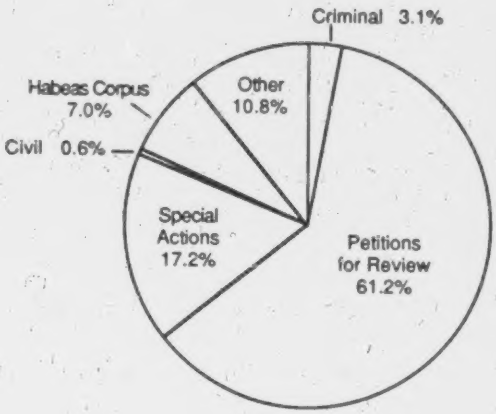
1985 CASELOAD ACTIVITY

The 1,240 Supreme Court cases filed in 1985 superseded the previous 1983 record high of 1,225. (This 1,240 figure includes six cases that were filed in the Supreme Court after being terminated in the Court of Appeals for lack of jurisdiction.) The 1985 caseload was an 11% increase over 1984, and in 1983 a 19% increase occurred in cases filed. Except for those notable two years, case filings in the Supreme Court have been relatively stable since 1978, with filings averaging around 1,048 per year.

Case terminations for 1985 exactly matched the 1,165 number recorded in 1983 and showed a 0.5% increase over the 1,159 terminations in 1984. Although the number of case terminations was high, the variance between the rate of filings and the rate of terminations produced a 30.3% increase in pending cases by the end of the year.

Filings -- As reported above, in the Supreme Court a record 1,240 cases were filed this year. This overall increase was a direct result of a significant 40.3% more filings in the habeas corpus category and an 18.4% rise in the filing figure for petitions for review. Criminal filings dropped from 58 in 1984 to 39 in 1985, or 32.8%.

Supreme Court
1985 Filings



Terminations -- Terminations increased in most case categories during 1985 with a significant 30.7% rise in habeas corpus terminations. Three additional (8) civil cases were terminated over the 1984 figure of 5. The special actions, state bar, and miscellaneous case categories each totaled slightly more terminations than last year and contributed to the 0.5% overall increase of terminations in 1985.

Pending -- The year end pending caseload figure of 331 cases was a 30.3% increase over 1984. This is largely due to the 78% increase of petitions for review pending at the close of court business on December 31, 1985.

Court of Appeals – Division One

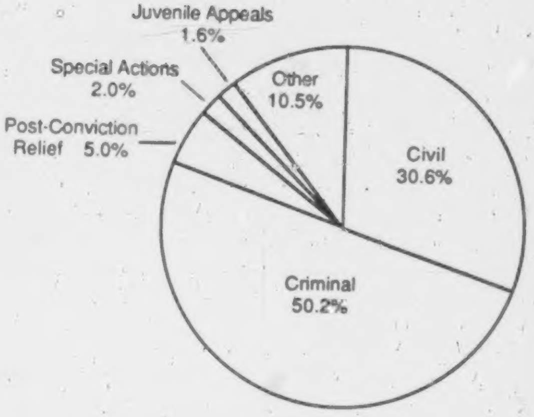
1985 CASELOAD ACTIVITY

The trend of increased filing activity in Division One continued during the year 1985 with filings rising from 1,904 in 1984 to 1,958 in 1985, an increase of 2.8%. Terminations also increased from 1,907 to 2,079, a 9.0% increase and a new record for Division One.

Filings -- Total filings for 1985 increased 2.8% over 1984. Increases were seen in criminal and post-conviction relief filings with criminal cases rising a significant 14.7%. Post-conviction relief filings grew from 9[illegible] to 98, and habeas corpus filings remained at a consistent two as in 1984. There were notable decreases in civil, industrial commission, unemployment insurance, special actions, and juvenile appeal filings, however, with the largest being a 21.9% decline in the industrial commission case category.

Terminations -- Terminations increased significantly in the major categories with criminal increasing 14.0%, from 848 to 967 and civil rising from 616 to 680, or 10.4%. Post-conviction relief case terminations increased 54.4%, from 90 in 1984 to 139 in 1985. As with filings, industrial commission case terminations decreased from 180 to 174.

Division One
1985 Filings



Pending -- Because of the 9.0% increase in terminations, the overall year-end pending caseload figure decreased 6.3% from last year, falling from 1,906 to 1,786 cases. Pending civil cases declined by 80, or 9.2%, while the post-conviction relief pending figure fell 34.5% from 1984. Due to the notable increase in criminal case filings, the year-end pending figure rose in that category from 711 to 726, or 2.1%

As shown in the bar chart, the court has recorded almost continuous increases in filings, terminations, and pending matters during the last ten years. The most significant increase in terminations occurred in 1983 following the addition of the court's fourth panel of judges. This allowed the year-end pending caseload count to stabilize in 1984 and actually drop by 120 cases in 1985.

There was a decline in the civil case category, as well as in post-conviction relief and delayed appeals. Pending juvenile appeals increased by 30% growing from 10 to 13 cases.

Superior Court

INTRODUCTION

The caseload statistics contained in this section are based on unaudited case activity reports filed with the Supreme Court by the superior court in each county. Criminal statistics represent the number of defendants; all other statistics represent cases.

Superior court statistical reporting forms and instructions were revised in 1984 to simplify reporting procedures and to gather more complete information. The new forms were also used in 1985 to make all information from the two years comparable. Unless otherwise noted, the revisions do not prevent comparison of 1985 statistics with those of previous years.

New chart designs were developed in 1984 to reflect changes in the statistical reporting forms. The revised designs are used again in this report. The statistical correction category, created in January 1984, enables a court to report statistical adjustments and correct inaccuracies. In addition, the "total termination" figure used in annual reports prior to 1984 was discontinued last year. On charts where 1984 and 1985 terminations figures are compared with earlier years, the number of cases transferred out has been subtracted from the previous years' figures for a valid comparison.

Both the superior court and the superior court probation department in each county report statistics on the disposition of convicted (criminal case) defendants. These two sets of figures do not coincide because probation departments keep sentencing statistics on defendants who are referred to probation prior to sentencing. Not all defendants are referred to a probation department prior to sentencing (e.g., for a pre-sentence investigation), so the number of offenders actually sentenced is greater than the number which is reported by the probation departments. Moreover, probation departments report sentences for defendants whose probation has been revoked while superior courts treat these as post-adjudication actions.

1985 CASELOAD ACTIVITY

Filings -- In 1985 total filings for the superior court increased significantly, rising from 99,533 to 114,430 for a 15.0% increase. The bar chart on page 36 compares the change in 1985 with the rate of superior court filings since 1981. An increasing trend is evidenced in the past three years with 1985 being the peak year.

The largest increase in superior court filings occurred in civil cases which jumped 17.3%. Domestic relations filings increased by 14.2%, a notable statistic when compared with the 6.8% decrease in domestic relations from 1983 to 1984. Total criminal filings were up a substantial 14.0% with felony filings rising 13.6% from 15,221 to 17,295. Other areas increased as well, with probate filings rising 8.8% to 9,436 in 1985 and domestic violence filings increasing 7.9% to 652.

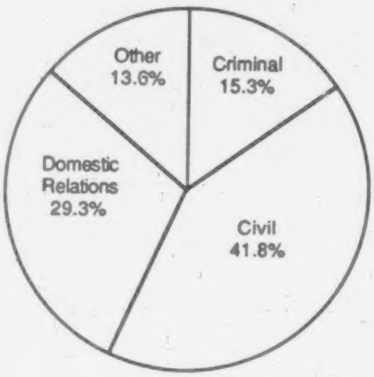
1985



Terminations -- Superior court terminations increased during 1985, although not to the same degree as filings. Total terminations rose from 95,328 to 105,248, an increase of 10.4%. Coinciding with the increase in filings, the most significant increase in terminations was in civil cases. Civil terminations increased 21.4% this year, rising from 37,687 to 45,761. Probate terminations also showed a significant jump during 1985, rising from 7,849 to 8,985 or 14.5%. Total criminal terminations rose 11.2% from 15,948 to 17,730 with felony terminations increasing 11.4%. The only decrease in superior court terminations occurred in domestic relations which fell from 30,600 to 29,547, or a decrease of 3.4%.

Pending Caseload -- Continuing the six-year trend, pending superior court cases increased 8.7% over 1984. The bar chart presented on the page 36 illustrates that the pending caseload for the superior court has steadily increased since 1980.

Sentencing -- The number of defendants sentenced by the superior court rose 12.1% during 1985. There was a 15.3% increase in the number of defendants sentenced to the Department of Corrections after a 2.1% decrease occurred from 1983 to 1984. Dispositions of defendants to county jails, however, continued the 1984 27.5% decline and fell another 28.0% from 400 to 288. In contrast to the decrease in sentences to county jails, sentences of probation with confinement increased to a record high level of 3,769, or a 25.1% increase. Sentences of probation without confinement also increased 6.9% after falling about 1% in 1984.

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed survey obtained from the superior court in each county. Statewide superior court summary information is contained in four tables that appear on the following pages. The tables separate actual expenditures made during fiscal year 1985 from the budgeted amounts appropriated for fiscal year 1986 for both the court and the clerk of court. Financial information for the probation departments of the superior court appears in the probation section of this report.

PERSONNEL INFORMATION

The personnel information presented here is based on responses to a personnel survey conducted by the Arizona Supreme Court in the October 1985. As a result of the variety and number of job titles encountered in compiling this information, the following general position groupings were developed for all superior court and clerk of court positions. (Personnel information for those individuals whose positions are funded through the probation departments' budget are included in the superior court probation section of this report.)

Superior Court Probation

INTRODUCTION

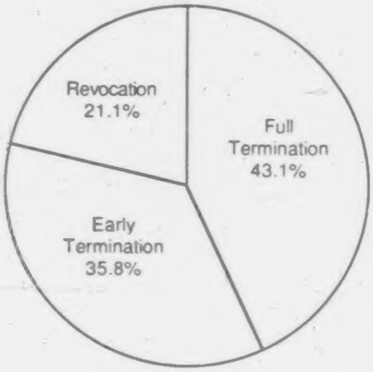
The information contained in this section of the report is based on unaudited monthly statistical reports submitted by superior court probation departments to the Arizona Supreme Court. Data regarding the Supreme Court's Intensive Probation Supervision program, while a highly-specialized type of probation, is not reported separately and, consequently, is included here.

ADULT PROBATION ACTIVITY

There were 7,911 new probationers added to the adult probation department caseload during 1985, a 25.8% increase over the 6,289 probationers added in 1984. A total of 2,299 probationers completed their full term of probation during 1985, a decrease of 4.5% from the 2,408 in 1984; however, the number of probationers receiving an early termination from probation rose from 2,222 to 2,769, or 24.6%, during the same period. Probation was revoked for 1,354 individuals, almost doubling the figure of 729 revocations recorded in 1984.

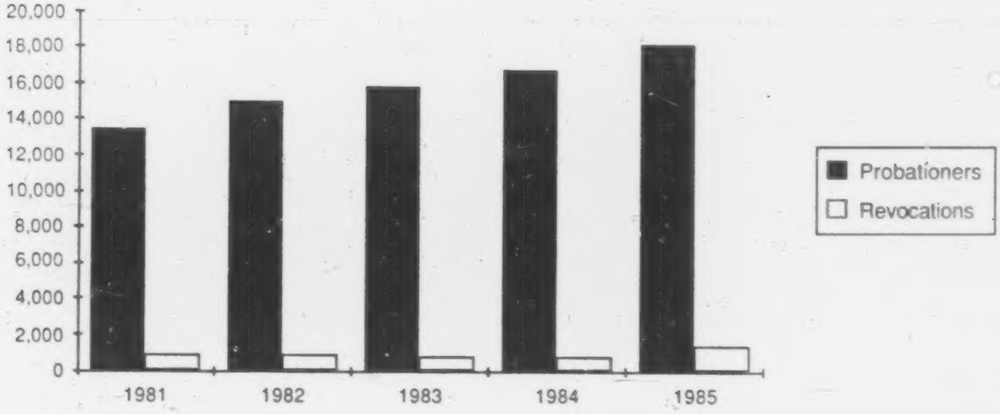
The bar chart illustrates the low number of individuals who have their probation revoked in comparison to the number on probation. The total number of persons on probation at the end of 1985 increased 8.9% over the number for the previous year; 18,176 in 1985 versus 16,687 in 1984. The number of revocations from probation, however, increased an astounding 85.7% from 729 in 1984 to 1,354 in 1985. As the number of adults placed on probation rose steadily (illustrated by the bar chart), the number of revocations remained relatively stable until this year.

Disposition of Adults Terminated From Probation



The pie chart shows percentages of adults terminated from probation in 1985. Over 43% of probationers were discharged from probation after serving their full term, while over 35% received early terminations, and over 20% were removed from probation. This figures compares to 1984 when 44.9% received a full-term discharge; 41.5% were terminated early; and 13.6% were revoked.

Adults on Probation and Revoked from Probation 1981-1984



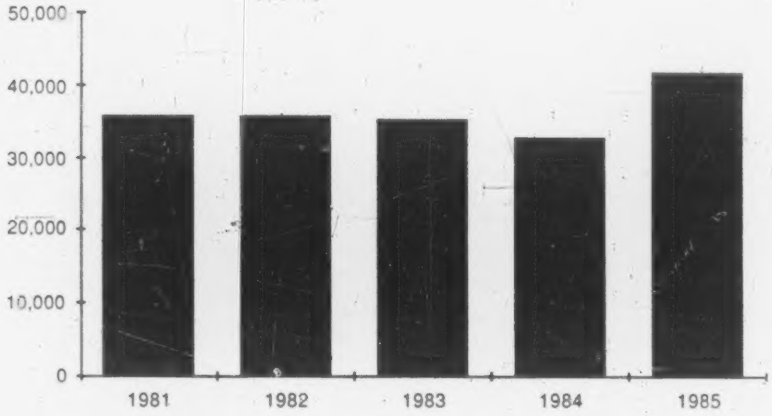
JUVENILE PROBATION ACTIVITY

Referrals -- During 1985 juvenile probation departments had 46,864 referrals available for disposition, an increase of 28.9% over 1984. Of these, 41,806 represent new referrals filed during the year, a 25.5% increase over the 32,789 filings in 1984. The remaining referrals were pending at the beginning of the year. As can be seen from the bar chart entitled "Juvenile Referrals 1981-1985," the number of juvenile referrals had been on the decline for the past four years, until this year, when it rose dramatically. One possible explanation for this is that the increase was generated primarily by the existence of the PIC-ACT program which provides for consequences short of petitioning and adjudication.

The number of cases in which a petition was filed also increased during 1985. In 1984 there were 10,874 petitions filed with the juvenile courts, and this year the figure rose 12.3% to 12,211. Referrals ending in adjustments increased a significant 27.7% from 18,790 in 1984 to 24,000 in 1985, two fewer than the 1982 record high level. The number of referrals pending at the end of the year, 7,737, represents a notable 53.0% increase over the 5,058 referrals pending January 1, 1985.

Children With Petitions -- The number of children with petitions filed during 1985 increased 6.2% from 9,217 in 1984 to 9,790 in 1985. In addition, there were 2,803 children with petitions pending on January 1, 1985. Of the 12,593 children with petitions pending during the year, 7,115 were adjudicated delinquent or incorrigible, a 5.5% increase over the 6,741 children with those adjudications in 1984. At the end of 1985 there were 3,269 children with petitions pending, a 16.7% increase in this category over the 2,803 children with petitions pending in the juvenile court January 1, 1985.

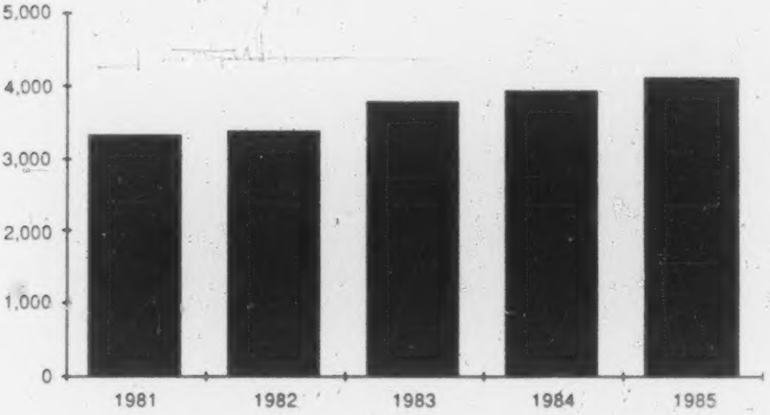
Juvenile Referrals 1981-1985



Probation Activity -- A total of 4,101 children were placed on probation during the year which was a 4.9% increase over the 3,911 children placed on probation in 1984. As shown in the bar chart entitled "Juveniles Placed on Probation," this increase continued the trend of the last several years. A 3.3% increase was reported for children who had their probation revoked and were sentenced to the Department of Corrections during 1985 (589 in 1985 versus 570 in 1984). At the end of 1985 a total of 4,473 children were on probation, an increase of 5.3% from the 4,247 on probation on January 1, 1985.

Reason Referred -- As in previous years, the majority of new juvenile referrals involved crimes against property. In 1985 a total of 19,854, or 47.5%, juvenile referrals involved crimes against property, down slightly from last year. In comparison, the next highest figure is for public peace offenses which constitute 20.2%, or 8,438 referrals. Incorrigible petitions (6,394, 15.3%), crimes against persons (3,765, 9.0%), and illegal goods or services (3,355, 8.0%) represent the remainder of the types of referrals received by the juvenile court in 1985. It is interesting to note the consistency of those percentages as compared with 1984.

Juveniles Placed on Probation 1981-1985



SPECIAL PROGRAMS

At the end of the year, a total of 212 offenders had been sentenced to Intensive Probation Supervision since the program's inception July 1, 1985. The most common convictions resulting in grants of intensive probation were burglary, theft, drug offenses, and class 5 and 6 assaults. Probation for 16, or 7.5%, of the offenders was revoked during the program's first six months which resulted in 196 probationers being supervised on intensive probation at year's end. Analysis of case data, coupled with site visits by staff, confirmed that felons sentenced to intensive probation were generally the type anticipated by the Thirty-Sixth Arizona Legislature (i.e., prison-bound), particularly in Maricopa and Pima Counties.

Juvenile Delinquency Reduction Fund monies, which have been available for distribution since July 1, 1984, were administered by the Supreme Court to fund programs in all 15 juvenile courts. Pursuant to A.R.S. Section 8-230.01, the funds are used for programs in which juvenile offenders are required to participate "as a condition precedent to adjustment of a delinquency complaint."

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed survey obtained from the superior court in each county. Statewide superior court probation department financial information is presented in four tables that appear on the following pages. The tables separate actual expenditures made during fiscal year 1985 from the budgeted amounts appropriated for fiscal year 1986 for both adult and juvenile probation departments. It should be noted that money received by adult probation departments as probation services fees and money received by juvenile probation departments from the Juvenile Crime Reduction Fund may be included in department expenditures but, because of their nature, cannot be included in the appropriation figures.

PERSONNEL INFORMATION

The personnel information presented in this section of the report is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1984. As a result of the variety and number of job titles encountered in compiling this information, the following general position groupings were developed. (Additional personnel information for the superior court can be found in the Superior Court section of this report. Positions are shown on the chart for the department which budgets the individual's salary. For example, juvenile court judges are paid from the superior court budget, but juvenile court referees are usually paid from the juvenile probation budget.)

CASELOAD STATISTICS

General

The 1985 caseload statistics contained in this section of the report are based on the unaudited monthly statistical reports submitted to the Arizona Supreme Court by each justice of the peace court.

In 1984, there was a major change in the law affecting limited jurisdiction courts. Beginning on January 1, 1984, most traffic violations, which were previously criminal misdemeanors, were decriminalized and became civil traffic violations. Several of the more serious traffic offenses remain criminal offenses, e.g., driving while intoxicated, reckless driving, and excessive speed.

As a result of this change in the law, the monthly statistical report forms used by the courts were revised. New chart designs were developed in 1984 to reflect changes in the statistical reporting forms. The revised designs are used again in this report. The statistical correction category, created in January 1984, enables a court to report statistical adjustments and correct inaccuracies. Prior to 1984, statistical corrections were included in the "transfer in" and "transfer out" categories, along with figures representing the actual transfer of cases between courts. The "transfer in" and "transfer out" categories now represent only those cases actually transferred within the court system.

In addition, the "total termination" figure used in annual reports prior to 1984 was discontinued last year. On charts where 1984 and 1985 terminations figures are compared with earlier years, the number of cases transferred out has been subtracted from the previous years' figures to make comparisons valid.

1985 Caseload Activity

The number of case filings in justice courts for 1985 increased 13.3% from the 470,034 in 1984 to 532,711 in 1985. Case terminations showed a similar increase of 18.2% rising from 451,637 in 1984 to 533,664 in 1985. The total number of cases pending at the end of the year dropped 4.4% from 325,618 in 1984 to 311,314 on December 31, 1985.

Filings -- Traffic cases comprise the majority of the workload in the justice courts. During 1985, the number of traffic filings (including traffic-related failures to appear) rose 12.1% from 340,471 in 1984 to 381,768 in 1985. Within the traffic category, driving while intoxicated (DWI) case filings increased from 14,930 in 1984 to 15,947 in 1985, an increase of 6.8%.

As shown in the pie chart, the vast majority of justice court filings in 1985 were traffic-related. A notable 46.2% of all filings, including domestic violence petitions for orders of protection, were criminal traffic complaints. Civil traffic cases comprised 24.8% of the total filings. Thus, traffic cases compile 71.0% of the total filings. At the municipal court level, however, a much larger proportion of the filings were civil traffic violations, 70.4%, as opposed to 11.4% which were criminal traffic. Civil cases comprised 17.5% of the 1985 justice court filings, while non-traffic misdemeanor cases made up 6.8% of the total filings. Felony preliminary hearings comprised 3.8% of the caseload, and domestic violence filings made up the remaining 0.9%. The portion of total filings comprised of civil, non-traffic misdemeanor, felony preliminary hearings, and domestic violence cases is consistent with the data reported in 1984 as percentages from both years vary only slightly.

It is interesting to note that despite the 12.1% increase in filings from 1984 to 1985, criminal traffic filings remained nearly the same. Traffic-related failures to appear (FTA) declined 14.5% due to the tremendous increase (45.4%) in civil traffic filings (for which a FTA complaint cannot be filed). The total of criminal traffic and FTA filings actually declined 0.1% from 1984 to 1985.

DOMESTIC VIOLENCE: Petitions for Order of Protection Filed: 4,764 Requests for Hearing: 935

*Does not include information from Pinetop Justice Court which was not available.
**These figures do not coincide with those reported for December 31, 1984, due to statistical corrections made by the Administrative Office of the Courts.

In addition to the increase in traffic filings the number of misdemeanor, civil, and felony preliminary hearing case filings also rose in 1985. Non-traffic misdemeanor filings increased from 29,937 to 36,747, a 22.7% jump. Filings in civil cases rose 14.6% from 81,996 in 1984 to 94,011 in 1985 with forcible detainer filings increasing 49.4%. Felony preliminary hearing filings rose from 17,630 in 1984 to 20,185 in 1985, an increase of 14.4%. Domestic violence petitions increased 28.6%, rising from 3,703 to 4,764.

Terminations -- As previously reported, total terminations rose 18.2% in 1985. The most dramatic increases were in the areas of traffic and civil cases. In 1985, total traffic terminations rose 18.6%, from 334,285 to 396,229. Within the traffic category, DWI terminations increased from 13,135 in 1984 to 14,443 in 1985, an increase of 10.0%. Civil case terminations increased 18.6% in 1985, rising from 75,869 to 90,010. Felony preliminary hearing terminations also increased by 1,151 cases, rising 6.9%.

Pending -- The total number of cases pending at year's end dropped 4.4% from 1984 due largely to the increase in criminal traffic terminations. Traffic cases declined the most, 9.3%, falling from 236,539 in 1984 to 215,443 in 1985. Pending misdemeanor cases rose 31.3% from 18,767 to 25,119 cases.

There was also a 35.8% increase over 1984 in felony preliminary hearing cases pending at the end of 1985. Small claims and under $500.00 and forcible detainer cases dropped 2.7% and 18.4% respectively, while $500.00 to $2,499.00 cases increased 6.0% from 1984 to 1985.

Caseload Statistical Definitions

The following definitions are included to provide the reader with a better understanding of what the caseload statistical data on the following pages represents. For all case categories, the statistical data reflects the number of case filings for the year.

Case Categories

CRIMINAL TRAFFIC - Major traffic violations contained in Title 28 of the Arizona Revised Statutes including driving while intoxicated, reckless driving, and other serious moving violations. Also includes all violations of Arizona Corporation Commission Motor Carrier Rules and Regulations and the "Motor Vehicle Financial Responsibility" statutes.

TRAFFIC FTA - An additional charge resulting from a defendant's failure to appear at a scheduled criminal traffic proceeding. (Failing to appear at a civil traffic hearing results in a default judgment being entered and is not included here.)

CIVIL TRAFFIC - Minor traffic violations contained in Title 28 of the Arizona Revised Statutes, including parking offenses, equipment offenses, and a number of minor moving offenses that have been designated as civil traffic violations.

NON-TRAFFIC MISDEMEANOR - All non-traffic misdemeanor violations, i.e., those where the law provides for punishment that does not exceed six months incarceration and/or a fine of $1,000.

MISDEMEANOR FTA - An additional charge resulting from the defendant's failure to appear at a scheduled hearing for a non-traffic misdemeanor offense.

FELONY PRELIMINARY HEARING - A hearing to determine whether the defendant should be held for trial in the superior court on a felony complaint.

SMALL CLAIMS AND UNDER $500 - Civil lawsuits filed under the small claims procedure and those in which the damages sought are less than $500.

$500 TO $2,499 - Lawsuits in which the claim is for at least $500, but less than $2,500.

FORCIBLE DETAINER - Lawsuits for recovery of leased or rented property where the rental value does not exceed $750 per month, and the damages sought are less than $2,500.

Case Activity

TRANSFERRED IN - The number of cases transferred in from other courts.

TRANSFERRED OUT - The number of cases transferred out to other courts.

STATISTICAL CORRECTION - The number of cases added or subtracted in order to correct statistical inaccuracies.

JURY TRIAL - The number of trials commenced in which a jury was sworn.

CIVIL HEARING - Traffic violation hearings held under the Rules of Procedure in Civil Traffic Violations Cases.

INITIAL APPEARANCE HEARING - The first court proceeding with the defendant present. The purposes are to inform the defendant of the charges and his rights and to determine the conditions of release, if any.

DOMESTIC VIOLENCE HEARING - A hearing held to revoke or modify a domestic violence order of protection.

SMALL CLAIMS HEARING - A hearing commenced under the procedures for small claims division cases; such claims cannot exceed $500.

FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed financial survey obtained from the justice courts. Actual expenditures made during fiscal year 1985 are presented separately from the budgets appropriated for the courts for fiscal year 1986.

Included in the General Introduction on page 4 is a brief explanation related to the overall financial information contained in the report and definitions as to what the financial categories presented include.

PERSONNEL INFORMATION

The personnel information presented here is based on responses to a personnel survey conducted by the Arizona Supreme Court in October 1985. Due to the vast number and variety of position titles that exist within the justice of the peace courts statewide, the following general position groupings have been established for purposes of this report:

Judge
Constable
Administrative Staff
Support Staff
Secretary/Clerical

Since little, if any, statewide uniformity appears to exist in regard to position titles and corresponding work-related responsibilities, for purposes of this report, positions have been grouped together solely on the basis of position titles. The following lists detail the position titles included under each general heading.

CASELOAD STATISTICS

General

The 1985 caseload statistics contained in this section of the report are based on the unaudited, monthly statistical reports submitted to the Arizona Supreme Court by the individual municipal courts.

In 1984, there was a major change in the law affecting limited jurisdiction courts. Beginning on January 1, 1984, most traffic violations, which were previously criminal misdemeanors, were decriminalized and became civil traffic violations. Several of the more serious traffic offenses remain criminal offenses, e.g., driving while intoxicated, reckless driving, and excessive speed.

As a result of this change in the law, the monthly statistical report forms used by the courts were revised. New chart designs were developed in 1984 to reflect changes in the statistical reporting forms. The revised designs are used in this report. The statistical correction category, created in January 1984, enables a court to report statistical adjustments and correct inaccuracies. Prior to 1984, statistical corrections were included in the "transfer in" and "transfer out" categories, along with figures representing the actual transfer of cases between courts. The "transfer in" and "transfer out" categories now represent only those cases actually transferred within the court system.

In addition, the "total termination" figure used in annual reports prior to 1984 was discontinued last year. On charts where 1984 and 1985 terminations figures are compared with earlier years, the number of cases transferred out has been subtracted from the previous years' figures for a valid comparison.

1985 CASELOAD ACTIVITY

During 1985, the municipal courts had 848,651 new cases filed. This was an increase of 9.5% over 1984 compared with only a 0.4% increase from 1983 to 1984. The courts were able to increase the number of case terminations by 11.0%, or a total 865,598 cases. As a result, the municipal courts decreased their pending caseload by 7.0% from 508,569 cases pending January 1,1985 to 473,172 cases on December 31, 1985.

Filings -- As reported above, total case filings for the municipal courts increased 9.5% to 848,651 from the 1984 level of 775,225. Traffic filings, which comprise the majority of the municipal court caseload, increased 7.7%, rising from 668,770 to 720,749. Within the category of traffic cases, driving while intoxicated (DWI) filings decreased 1.3% from 40,332 in 1984 to 39,805 in 1985. Non-traffic misdemeanor filings rose from 93,929 to 108,377, a difference of 15.4%. Misdemeanor failures to appear (FTA) filings rose 6,999, or 55.8%. Domestic violence filings grew 30.0% during the year, rising from 1,172 in 1984 to 1,524 in 1985.

As shown in the pie chart, traffic cases constitute a total 84.8% of the total municipal court case filings which also include domestic violence orders of protection. Of this 84.8%, civil traffic filings accounted for 70.3%. This is quite different from the justice courts caseload where civil traffic filings represented 24.8% of the total. Criminal traffic filings in the municipal courts comprised only 14.5% of the total filings. Non-traffic misdemeanor cases were 15.0% of case filings and 0.2% were domestic violence petitions.

Terminations -- Case terminations at the municipal court level rose a significant 11.0% from 779,792 in 1984 to 865,598. Traffic case terminations increased the most rising from 684,488 to 765,609, or 11.9%. Within this category, DWI terminations grew significantly, 18.4%, increasing from 31,482 to 37,279. Non-traffic misdemeanor and misdemeanor failures to appear (FTA) dropped 4.9% from 1984.

*Includes information for Carefree, Bullhead City, and Pinetop-Lakeside Municipal Courts which began operation on July 1, 1985 and for Colorado City Municipal Court which began operation on November 15, 1985.

**These figures reflect revised statistics received at the Administrative Office after printing of the 1985 Judicial Report.

Pending -- For the second consecutive year, the year-end pending caseload figure has dropped from the previous year. From 1983 to 1984, there was a 1.8% decline, contrasted by a 7.0% decrease from 1984 to 1985. There were 316,375 traffic cases pending on December 31, 1985, compared to 367,592 on December 31, 1984, a 13.9% difference in pending figures. However, there were 11.2% more non-traffic misdemeanors (including FTA's) pending at the end of 1985 than at the close of the previous year.

Caseload Statistical Definitions

The following definitions are included to provide the reader with a better understanding of what the caseload statistical data on the following pages represents. For all case categories, the statistical data reflects the number of case filings for the year.

Case Categories

CRIMINAL TRAFFIC - Major traffic violations contained in Title 28 of the Arizona Revised Statutes including driving while intoxicated, reckless driving, and other serious moving violations. Also includes all violations of Arizona Corporation Commission Motor Carrier Rules and Regulations and the "Motor Vehicle Financial Responsibility" statutes.

TRAFFIC FTA - An additional charge resulting from a defendant's failure to appear at a scheduled criminal traffic proceeding. (Failing to appear at a civil traffic hearing results in a default judgment being entered and is not included here.)

CIVIL TRAFFIC - Minor traffic violations contained in Title 28 of the Arizona Revised Statutes, including parking offenses, equipment offenses, and a number of minor moving offenses that have been designated as civil traffic violations.

NON-TRAFFIC MISDEMEANOR - All non-traffic misdemeanors, i.e., those where the law provides for punishment that does not exceed six months incarceration and/or a fine of $1,000.

MISDEMEANOR FTA - An additional charge resulting from the defendant's failure to appear at a scheduled hearing for a non-traffic misdemeanor offense.

Case Activity

TRANSFERRED IN - The number of cases transferred in from other courts.

TRANSFERRED OUT - The number of cases transferred out to other courts.

STATISTICAL CORRECTION - The number of cases added or subtracted in order to correct statistical inaccuracies.

Proceedings

COURT TRIAL - The number of trials commenced without a jury.

JURY TRIAL - The number of trials commenced in which a jury was sworn.

CIVIL HEARING - Traffic violation hearings held under the Rules of Procedure in Civil Traffic Violations Cases.

INITIAL APPEARANCE HEARING - The first court proceeding with the defendant present. The purposes are to inform the defendant of the charges and his rights and to determine the conditions of release, if any.

DOMESTIC VIOLENCE HEARING - Hearings held to revoke or modify a domestic violence order of protection.

FINANCIAL INFORMATION

The municipal courts' financial information has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget figures were available.

PERSONNEL INFORMATION

The personnel information presented here is based on responses to a personnel survey conducted by the Arizona Supreme Court in October 1985. Due to the vast number and variety of position titles that exist within the municipal courts statewide, the following general position groupings have been established for purposes of this report:

Judge
Administrative Staff
Support Staff
Secretary/Clerical

Since little, if any, statewide uniformity appears to exist in regard to position titles and corresponding work-related responsibilities, for purposes of this report, positions have been grouped together solely on the basis of position titles. The following lists detail what positions are included in each grouping.
